

For Immediate Release

Lake Country Classical Academy Now Accepting Enrollment Applications for 2022-2023 School Year!

OCONOMOWOC, Wis. (Jan. 1, 2022) — Lake Country Classical Academy (LCCA) — a tuition-free charter school that opened in Oconomowoc this past September — is now accepting applications for K - 10th grade students for the 2022-2023 school year. LCCA anticipates enrolling approximately 450 kindergarten – 10th grade students next fall and will expand by one grade each year until fully serving grades K - 12 by 2024.

The current enrollment period will close at noon on January 31. Returning students will receive enrollment priority, and any available seats will be offered to new students. If more students apply than seats available, grade-specific lotteries will be conducted for new students on Feb. 1, and families will be notified by 5 p.m. on Feb. 1 of the outcome.

An additional enrolment period may be offered in March if openings are still available. To submit an application(s) for your child(ren) and to learn more about LCCA's enrollment process, visit the school's website, lakecountryclassical.org/parents.

Why choose LCCA? Listen to what our parents are saying! When asked what they love about LCCA in a recent family satisfaction survey...

"For the first time in 7 years, my son is HAPPY at school! The culture is friendly and his teachers care about him LEARNING not just presenting the material and hoping it sticks."

"We LOVE the full person approach to learning. Our girls are better humans for going to LCCA and we could not be more blessed to have found this school in year one."

"I love the community feel of the school as a whole. It feels like we are all in this together making the school a success."

"I know my child is safe in their education and is being taught to love others and treat them with respect."

“We love LCCA and are so thankful that we chose this character-building environment for our children. We love the dedicated and engaging teachers who pour into the students. We love that our children use pencil and paper instead of computers and that they use textbooks. We love that they are pushed to a higher standard and how proud they are to see that they can meet and even exceed those standards with hard work.”

“We have a fairly long car ride home and daily the whole ride is filled with the kids excitedly sharing stories from the day, new and interesting facts that they have learned in science, or practicing their recitations. They are finding school to be rewarding and interesting.”

“I love the staff, the uniforms, the excellent communication, the chance for kids to be kids! I love the Latin, the emphasis on students taking responsibility for their learning! I love the limited technology and emphasis on books!”

“My kids love going to school each day and shockingly they don't complain about homework... in fact sometimes they comment that they actually find it fun!”

As a Hillsdale College Member School, LCCA employs Hillsdale’s well-developed and tested K-12 liberal arts curriculum, which emphasizes the core disciplines of history, math, science, and language arts (including phonics and writing), with significant attention to music, art, and foreign language (Latin). Hillsdale K-12 staff provides support to LCCA’s faculty on content and instructional practice across all grades and subjects. Hillsdale also provides significant assistance to LCCA’s principal and board in the form of counsel, training, and best practices. LCCA is the first and only Hillsdale College Member School in the state of Wisconsin, and one of 19 Hillsdale College Member Schools across the U.S.

For more information about LCCA and its curriculum, visit www.lakecountryclassical.org.
