

LAKE COUNTRY CLASSICAL ACADEMY

Steadfast Dedication to Classical Education Excellence

"All growth depends upon activity. There is no development physically or intellectually without effort, and effort means work." – Calvin Coolidge

NESTLED IN WISCONSIN'S Lake Country, Lake Country Classical Academy (LCCA) proudly upholds the timeless legacy of classical education – a tradition of intentional effort, intellectual rigor, and unyielding pursuit of excellence.

Founded in 2021 as an independent, tuition-free, public charter and the state's inaugural

Hillsdale College Member School, LCCA has blossomed into a K-12 haven for 550 students. Our motto, *scientia est libertas* ("knowledge is liberty"), guides this journey, affirming that true freedom emerges from disciplined minds and virtuous hearts.

Over our first five years, LCCA's growth has been extraordinary, earning a coveted 4-star "Exceeds Expectations" rating from the Wisconsin Department of Public Instruction for two consecutive years. This milestone reflects our holistic approach: academics that sharpen intellect, athletics that forge resilience, arts that stir the soul, and enrichment programs that nurture well-rounded leaders.

At the core is the student's mind and character. Through timeless works like Homer and primary texts such as the Federalist Papers, young scholars step into history's footsteps, cultivating empathy, perspective, and connections across disciplines. Socratic seminars ignite logical thinking and persuasive voice, building confidence that compounds with every debate and discovery.

Our dedicated faculty brings this vision to life through teacher-led instruction rooted in the Hillsdale K-12 curriculum. Students master the trivium (grammar, logic, rhetoric) via content-rich lessons in math, phonics, science, English, Latin, and history. Effort

is the heartbeat here, echoing Coolidge's call. There are no shortcuts. Students will recite, debate, and revise, blending intellect with character pillars like courage, perseverance, and wisdom. This culminates in the senior thesis, a capstone paper defended orally, showcasing the depth and maturity that defines LCCA's *Portrait of a Graduate*.

Beyond the classroom, vitality abounds. Our athletic programs build grit, while theater, orchestra, and the arts unleash creativity. Explore our various enrichment activities, such as chess to hone strategy, or the Service Club to drive community outreach. And all the while, our school assemblies are filled with student tributes and poignant reflections honoring Veterans Day, recognizing the signing of our Constitution, spotlighting our monthly virtue, and much, much more.

Open to all via an enrollment lottery, LCCA draws families from Milwaukee to Sun Prairie and invites you to experience this excellence. Discover how classical education can challenge and inspire each child to transform effort into an enduring purpose.
